THE VINTAGE

Early ripening and well-managed yields made 2015 a successful vintage! After a very mild winter, spring continued to be very clement and easy. The warmer months of May and June encouraged vine growth. A July heatwave (often more than 40°C) with no rain slowed the vegetative cycle considerably. Happily, in mid-August, the rain fell and permitted the vines to grow and the grapes to ripen. By end of August, the vines were in perfect condition. The weeks before harvest were sunny with cool nights and light showers. The grapes matured perfectly.
